

**Subject: CIO-SP4 Solicitation Number 75N98121R00001, Informational Notice**

The National Institutes of Health Information Technology Acquisition and Assessment Center (NITAAC) completed its evaluation of proposals in all three phases in accordance with the subject solicitation including its source selection procedures. The NIH is awaiting the SBA to confirm small business size standards for the apparent successful offerors, while we continue to perform our responsibility checks in accordance with FAR 9.104. Therefore, we are posting a “preliminary” notice of apparent successful offerors until such time that we can post the actual apparent successful offeror notice. This “preliminary” listing may not yet be comprehensive and complete. The “preliminary” listing does provide the company name and DUNS number and is grouped per socioeconomic category. Please note that some offerors may have more than one socioeconomic grouping. The actual listing will be provided after the SBA and responsibility checks which should be in approximately one to three weeks and will be final at that time. Awards will not be made until and unless successful completion of these respective checks.

Finally, this announcement is being released under FAR 5.201(c) to improve small business access to future acquisition information and to enhance future competition. It is not intended to fulfill the requirements of FAR 15.503. NITAAC appreciates the robust competition under this solicitation. I hope that all offerors will look for teaming opportunities and continue to participate in future procurements.

**Small Business (SB)**
